

Monday

MORNING :

First, we were welcomed by the director and the performing class of the Nova Academy.

They sang some covers of different songs. It was a nice moment because all of them sing very well. And then, we had a welcoming breakfast.

After the breakfast, we had a presentation at the city hall about the Baltic Sea.

After that, we lunched at the « Hickory » restaurant.

AFTERNOON :

After the lunch, we went to the maritime center of Simrishamn. There, we had a presentation, the topic was focused on the Baltic Sea and the toxins that are found in it. Mr Göran Ewald presented to us : what is dangerous in the different toxins, what are the effects of them in the time, how they are transmitted, how they are measured, he spoke about bioaccumulation, biomagnification. He told some numbers about the production of chemical products. He spoke with a lot of scientific words.

After the maritime center, we got free time with the hosts. So, we went to a café, we walked in the city, and then we arrived to the sea front.
