

Stay in Sweden

During our stay in Sweden from 2 to 8 october 2016,we met a lot of people of other nationalities.
We agreed and we had a lot of fun.

My correspondant's name is Tuva, she is 17. she has a sister, Malva that is 15 years old. I lived at her father's place, which again was very nice ! They warmly welcomed me, and helped me discover new things.

I really loved this week in Sweden !

WATER PLANT

Wednesday morning we went to visit a water treatment station in Nedraby. This is a hyper modern water plant rebuild in 2015. They use a very modern way of preparing the water. They use 8 different filters to filter water. The water is quite clean but there is scrap iron. When the water is filtered they put it in a big reservoir.

Water plant seen
from the outside.

MALMÖ

On wednesday afternoon we went to Malmö in a big shopping center: emporia.

Shopping center

Malmö is the 3rd biggest city in Sweden located in the very south of Sweden. Malmö is connected with Copenhagen by the majestic Öresund bridge.

Malmö is one of the most sustainable cities in the world.

There are a lot of things to visit, for example there are parks like «kungsparken», there is a castle «malmöhus slott», there are a lot of churches like « coroli church », « st johannes kyrka » ... And many things!

Mölmo, a view of emporia
